indicator

16
1990-1992

20
1992-1994

24
1995-1996

To guide you through this tour of the *IEEE Canadian Review's* last 25 years, we've developed a "navigation" system repeated throughout. Content is grouped into time periods, mostly of two years.

A blue time-line extends across the top of each page. A red rectangle is superimposed above the portion of the time-line being profiled on the pages below.

What's inside

- 5** **Editor-in-Chief's Message**
Looking back, moving forward
- 6** **Bob Alden & Richard Marceau**
Founders' Profiles
- 7** **1988-1990**
Laying out the vision
- 16** **1990-1992**
Power and Politics: the birth of the CEA; the Canada/US FTA
- 20** **1992-1994**
Women in Engineering - progress continues
- 24** **1995-1996**
Engineers reach out to First Nations
- 28** **1997-1999**
Engineers as agents of social change?
- 33** **2013 IEEE Canada Achievement & Service Awards**

- 41** **2000-2002**
Networking and IEEE
- 48** **2003-2004**
Renewable Energy - ways to make it work
- 52** **2005-2006**
Emerging disciplines - biomedical engineering
- 56** **2007-2008**
Canada's first foray into space - Alouette 1
- 62** **2009-2010**
Volunteers - the foundation of IEEE Canada
- 66** **2011-2012**
The Irreplaceable Wally Read
- 68** **Conferences**
EPEC and CCECE
